CANADA'S HISTORIAN.

Mr. Benjamin Sulte's Remarkable Literary Career.

Mr. Benjamin Sulte is regarded by his fellow countrymen as the greatest living authority on the history of his province. He was born at Three Rivers on September 17, 1841, and is the only living son of Benjamin Sulte and Marie Lefebvre, the latter of whose ancestor was the first French settler at Baie du Febvre in 1683. Young Sulte left the Friars' school at the age of ten, and since that time he has never been a week at a time without a salary. Even at that early age he could read, write and calculate well, and had a good knowledge of English. He always devoted his evenings to reading, and his readings were, as a rule, systematically chosen, but history had the preference. At first he was a clerk in a dry goods establishment, then in a grocery store, and subsequently he became a book-keeper with the lumbering firm of G. A. Gouin & Co. Later he was purser on one of the vessels plying between Montreal and Three Rivers, then a merchant selling clothing in connection with the building of the Three Rivers and Arthabaska Railway, and again, in 1864, as book-keeper at Gouin's. In 1863 Mr. Sulte had joined one of the two companies of infantry that were organized at Three Rivers, and two years later his company, No. 1, was sent to the Niagara frontier, and he was made a color-sergeant of it, returning in July, when he went to the military school at Quebec. Having a taste for literature, which he had already evinced in verse and prose, he, as an editor, followed the autumn session of Parliament, and in February, 1866, again joined his company at the Missisquoi frontier. When the company returned home in July he became editor of Le Canada, Ottawa, and in November of the following year he entered the House of Commons as one of its translators. In May, 1870, he was removed to the Department of Militia and Defence, where he is still employed, having on July 1, 1887, been appointed chief clerk of the department.

OF A LITERARY TEMPERAMENT.

He has taken an active part in the following societies: Cercle Litteraire, Three Rivers, of which he was president from 1861 to 1865; Cercle Artistique et Litteraire, Brussels, Belgium, of which he was a corresponding member in 1866; St. Jean Baptiste Society, Ottawa, of which he was secretary in 1866; Institut Canadien-Francais, Ottawa, of which he was president from 1874 to 1876. In 1875 Mr. Sulte became a member of the Literary & Historical society, Quebec; in 1877 president of the St. Jean Baptiste society, Ottawa; and also president of St. Thomas Benevolent society, Ottawa; in 1878 a member of the Historical society of Montreal, and also of the State Historical society of Wisconsin; in 1882 a member of the Royal Society of Canada; in 1883 president-general of the St. Jean Baptiste society of Ottawa, and in 1885 he was made president of the first section of the Royal Society of Canada. As a lecturer, Mr. Sulte is well known. In 1878 he visited the New England states and delivered lectures in the French-Canadian centres, and on delivering his one-hundredth lecture in the French-Canadian institute at Ottawa he was made the recipient of a valuable present. Mr. Sulte differs from many speakers in that he never writes his addresses, and he speaks without notes. As a literateur Mr. Sulte is known far beyond the Canadian border.

HIS FIRST EFFORTS.

His first efforts in this direction were verses published in 1859-60 under various noms de plume. In 1861 he signed his own name to his productions, which at once attracted attention. Since then he has contributed numerous articles to the French press, both in Canada and the United States, besides several volumes of an historical character, and other works, such as large indices to series of historical documents, have been put in circulation. In 1885 he contributed his one hundredth article to La Revue Canadienne, on which occasion the directors gave him a grand banquet in Montreal, and the next number of the Revue contained nothing from any writer except Mr. Sulte, who contributed, among other things, verses, a novel, a review of books and a study of certain points of Canadian history. Since 1885 he has published in the French Press of Canada and the United States articles dealing with various points of Canadian history; and in the English language he has published many articles relative to the Ottawa valley in the seventeenth and eighteenth centuries. These he intends to publish in book form at an early date. He is a staunch Roman Catholic, and a Conservative; but since 1867 he has taken no active part in politics. In May, 1871 he married at Ottawa, Augustine, youngest daughter of Etienne Parent, under-secretary of state.—St. John Globe.

WHO DR. McCORMICK IS.

Montreal has Something to say Respecting The Well Known Richmond Physician.

Montreal, October 29.—Dr. A. G. McCormick, of Richmond, Que., whose remarkable cure of Bright's Disease, by the use of Dodd's Kidney Pills has been set forth in his letter, recently published, is a graduate of McGill College, this city. He is well known, not only to the medical profession in Montreal, but throughout the entire province, as a careful and reputable physician, and his testimony to the worth of Dodd's Kidney Pills is accepted by physicians generally as a guarantee of the efficacy of the remedy. Such a communication, coming from so eminent a graduate of McGill, will have the effect of making Dodd's Kidney Pills universally popular in Quebec.

The alligator does not attain his full length until he is fifty years of age. When one year old his length is about twelve inches; at the age of fifteen he has grown to two feet.

If you are despondent low spirited, irritable, and peevish and unpleasant sensations are felt invariably after eating, then get a bottle of Northrop and Lyman's Vegetable Discovery and it will give you relief. You have dyspepsia. Mr. R. H. Dawson St Mary's writes "Four bottles of Vegetable Discovery entirely cured me of Dyspepsia; mine was one of the worst cases, I now feel like a new man

Tromsoe, in Norway, has just celebrated its 1,000th anniversary. In that time it has grown from sixty people to 6,000. The inhabitants are chiefly devoted to fishing.

I was attacked severely last winter with Diarrhœa, Cramps, and Colic and thought I was going to die, but fortunately I tried Dr. Fowler's Extract of Wild Strawberry, and now I can thank this excellent remedy for saving my life. Mrs. S. Hellett, Minden, Ont

ITEMS OF GENERAL INTEREST.

A bat can absorb and digest in one night three times the weight of its own body. Bats never have more than two little ones at a time.

The largest tree in the world lies broken and petrified at the end of a defile in North-Western Nevada. It is said to be six hundred and sixty-six feet long.

In Italy the Senate consists of princesses of Royal blood and an unlimited number of members appointed by the King for life. In 1890 there were three hundred and fifty-five members.

There are forty-eight different materials used in constructing a piano, from no fewer than sixteen different countries, and employing forty-five different hands.

According to Galton the patterns on the finger-tips are not only unchangeable throughout life, but the chance of the finger prints of two persons being alike is less than one chance in 64,000,000,000.

The Paris-born families become extinct in three or four generations in consequence of their feeble fecundity and high rate of mortality, and the average length of life among them is only 28 years and one month, as compared with forty years and two months for the rest of France.

Among the products which science has put to valuable service is the nettle, a weed which is now being cultivated in some parts of Europe, its fibre proving useful for a variety of textile fabrics. In Dresden a thread is produced from it so fine that a length of sixty miles weighs only two and a half pounds.

The mathematical fiend has been at it again, and now makes to a shuddering world the announcement that "two persons playing dominoes ten hours a day, and making four moves a minute, could continue one hundred and eighteen thousand years without exhausting all the combinations of the game, the total of which is two hundred and forty eight billion five hundred and twenty-eight million two hundred and eleven thousand eight hundred and forty."

To tell mushrooms from toadstools, without eating and waiting for results, peel an onion and put it with the fungi while being cooked. If the onion remains white you may eat it with confidence; if it turns black eat it not if you have the slightest desire for life.

Recent experiments for determining the effect of massage upon the blood show that it increases the number of red blood corpuscles enormously, and also the hemoglobin, though to less extent. In some cases there was an even greater increase in the white-blood corpuscles.

South Gower.

South Gower, Oct. 31.—A special meeting of the council was called by the Reeve last Saturday to appoint an arbitration in some matters on the town line between this township and Mountain. After consulting some ex-members of the council and considering the matter, it was thought advisable to get the opinion of the township solicitor, which was done and the council was advised that there was no cause for arbitration. The real matter of dispute, is the location of the boundary line, which is undoubtedly a question of law, and not for arbitration.

An appeal has been taken against the award of the township engineer, in the fourth concession.

Mr. H. McFadden has rented what is known as the Cameron farm in the second concession, from Mr. Jas. Magee.

The O. Y. B's. are organizing an Orange Lodge at Heckston.

Rev. Mr. McKinnon has accepted a call to the Baptist churches of Kemptville and South Gower.

DEAFNESS An essay describing a really genuine cure for deafness, singing in ears, etc no matter how severe or long standing, will be sent post free.—Artificial ear drums and similar appliances entirely superseded. Address Thomas Kemps, Victoria Chambers, 19 Southampton Building, Holborn, London

A carload of matches was ignited by friction in transpoartion and burned the other day at Burgin, Ky.

Rev. R. R. McKay is expected home

If the hair is falling out and turning gray the glands of the skin need stimulating and color-food, and the best remedy and stimulant is Hall's Hair Renewer.

Prof. Alexander Graham Bell, the inventor of the telephone, is now at work on the problem of seeing as well as talking through a wire. He firmly believes that we will soon be able to see the people we are talking to by telephone, although hundreds of miles away.

All we have ever said of the curative virtues of Ayer's Sarsaparilla sinks into insignificance when compared with the statements made by those who have been benefitted by the use of this wonderful blood-purifier. Many of the cures seem indeed almost incredible.

Until now the depth of four and a half miles, sounded off the coast of Japan, has been the record for deep-sea soundings; but this is now beaten by sounding in the South Atlantic of seven thousand seven hundred fathoms, or nearly nine miles.

Ask the Lad.

A lady named Mrs. T. C. M. Humphrie living in Keene, Ont., Who used only two bottles of Membray's Kidney and Liver Cure has forwarded a statement to the effect that it completely cured her of inflammatory rheumatism, kidney and Liver troubles Such a complication of diseases yielding so quickly to this remedy should encourage sufferers to give it an honest trial.

The perfume of flowers is more clearly perceived just before or after a rain, because the air, then laden with moisture, better conveys the essential oils that contribute the color.

K. D. C. cleanses the stomach and sweetens the breath. Try it! Testimonials and guarantee sent to any address. K. D. C. Company, Ltd., New Glasgow, N. S. Canada, or 127 State St., Boston, Mass.

Explorers declare that no flowering plant has ever been found within the Antarctic circle. In the Arctic circle seven hundred and sixty two different kinds are known.

While thorough in action, Ayer's Pills strengthen rather than stimulate the excretory organs. Leading physicians recommend them because they are free from calomel or other injurious drugs, being composed entirely of the best vegetable aperients.

Iceland is pronounced by a writer in the current number of the Quarterly Review but a burnt out cinder, more akin to a bit of the moon than anything on this planet.

No good blood is made by the dyspeptic. K. D. C makes good blood by restoring the stomach to healthy action. Ask your druggist for it.

CARTER'S LITTLE LIVER PILLS.

CURE
Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, P... While their most remarkable success has been shown in curing

SICK
Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD
Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE
is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

COAL FACTS

The "Coal Trade Journal" of New-York for 17th october 1894, says:—

"It is an undisputed fact that no Coal ever sold by any company, has attained so high a reputation in so short a time as the

ONTARIO AND WESTERN
COAL"

Having the exclusive sale of this celebrated Coal for Ottawa and vicinity, and by paying particular attention to screening, and delivery by careful and civil carters, we have more than doubled our sales in two years.

Our Prices are no Higher than those Charged for other COALS.

SOME GOOD REASONS
for Insuring in
THE GREAT-WEST
Life Assurance Co'y.

HEAD OFFICE: Winnipeg, Man.

J. H. BROCK, Managing Director

FIRST
The GREAT WEST is the only Canadian Company giving its policy holders the security of a Four Per Cent. Reserve: all others, without exception, reserving on a lower standard.

SECOND
All the receipts are invested in the West, where the experience of investors has shown that better rates of interest can be obtained on securities which are steadily increasing in value Statistics show that $15,000,000.00 of Ontario Capital has been invested at an average rate of eight per cent.

THIRD
The policy contract is more liberal than that of most companies and as liberal as any issued. No restrictions as to residence, travel or occupation. All policies incontestible after one year.

FOURTH
Agents and policy holders agree that every desirable plan of insurance has been adopted and that the rates are lower than those of other companies to attain equal results

FIFTH
The Collateral Security and Savings Bank Policies, (issued only by this company) give the largest guaranteed results of any plans offered to the public.

SIXTH
The Great-West Annuity Bond is the most favorable plan of insurance payable by instalments and the term plan is the best pure insurance without investment.
