

THE LADIES' GOLF CHAMPIONSHIP

Quebec Ladies' Club Representatives Showed Up Very Well—Impressions of Event

Amongst the large number of competitors in the Ladies' Closed Championship Golf Meeting for the Dominion, held this week over the Lambton Course, were three members of the Quebec Ladies' Golf Club.

Interviewed last evening by the Chronicle as to her impressions of the championship meeting, Mrs. Handsombody said that all the competitors had a wonderful time at Lambton, and were accorded the utmost hospitality by the Lambton Club, and motor cars were placed at the disposal of the competitors.

With regard to the championships, it was first intended that sixteen competitors would be permitted to qualify, but owing to the large number was changed to thirty-two.

Among the interested spectators was Miss Cecil Leitch, the celebrated English golfer, and last year's open champion of Canada, who was, however, unable to take part this year owing to the condition of her arm, which prevents her from playing for some length of time.

As regards the course, Mrs. Handsombody said it was situated some little distance from Toronto—about three-quarters of an hour's ride from the city. There is a beautiful club house upon it, from one of the verandahs of which one can see over the whole course, with the exception of the first, second, seventeenth and eighteenth greens.

Continuing, the Conservative leader announced that he was going to see that friend and foe alike should show where he stood, without equivocation.

"We in Canada," he said, "do not recognize any inevitable foe amongst the nations of the world. Our resolve is to regard every country as our friend. That, however is to regard every country as our friend. That, however is to regard every country as our friend.

Proceeding Mr. Meighen said that the provisions of the treaty which secured that neutralization had been defied. Just what had been done nobody here exactly knows, but it was hoped that, Britain having set her foot down, peace would follow, and in that peace would still be maintained the neutrality of the Straits.

LEAD BOOSTED New York, Sept. 22—The American Smelting and Refining Company today advanced the price of lead from 6.10 to 6.25 cents per pound.

DELAY IN REPLY DRAG CANADA INTO THE WAR

Meighen Would Back Government in Rushing Message Of Loyal Co-operation

CANADA IS A PARTY Parliament Ratified Treaty Of Sevres On Motion Of Present Premier

Toronto, Dec. 22—Declaring that what Great Britain wanted from the British Dominions was a declaration of the Empire's solidarity to meet the Near Eastern crisis, and that the King Government's delay in replying might serve to drag Canada into war, Right Hon. Arthur Meighen, former Premier and now Conservative Opposition Leader, addressed the business men's Conservative Club today.

Mr. Meighen declared that Canada was a party to the Treaty of Sevres. "Not only were we a party to it, but, on a motion of the present Premier, we ratified by legislation the action of our representatives in signing the Treaty," said Mr. Meighen.

There was no suggestion of sending a force overseas, so far as we can judge from the evidence we have received. What Britain sought was simply a declaration of solidarity from the component parts of the Empire, a solidarity the existence of which we thought the late war had made abundantly evident.

When a new party arose, denied the treaty, and threatened Europe, Britain found it necessary to raise her hand and say "only this far shall you go."

Mr. Meighen said, "sends messages to her Dominions, not a mere indifferent formal inquiry, if we can judge the evidence, but an appeal for co-operation."

Mr. Meighen also discussed the question of the Canadian National Railways, sketching their history for the past 20 years, and stating that he considered that all the actions of the late Government had been carried out because of a true desire for the promotion of public ownership.

"The present Government has no fault to find with the executive or directorate," he said, "but all must recognize any inevitable foe amongst the nations of the world. Our resolve is to regard every country as our friend. That, however is to regard every country as our friend.

Proceeding Mr. Meighen said that the provisions of the treaty which secured that neutralization had been defied. Just what had been done nobody here exactly knows, but it was hoped that, Britain having set her foot down, peace would follow, and in that peace would still be maintained the neutrality of the Straits.

"Is not prepared to surrender that prize of victory, because she wishes to secure that the future may belong to peace and not to war. She sends a message to the Dominions, not a mere indifferent enquiry as to what was the mind of Canada, but a message to see if the Dominions were solid in the policy which she had there be no dispute as to where I stand. When Britain's message came, then Canada should have said 'Ready, aye ready, we stand by you.'"

NEW AGREEMENT WITH INDIANS

Preliminary Work Still Continuing But Much More To Be Accomplished

Ottawa, Sept. 22—Preliminary work on the negotiations for the new agreement between the Government and the British Columbia Indians is still continuing though it has been found that there is much more work to be accomplished than will make it possible for any finality to be reached in the agreement this fall.

Following the negotiations with the British Columbia Indians last spring, which were conducted by Hon. Charles Stewart, Minister of the Interior, Dr. Duncan C. Scott, W. E. Ditchburn, Provincial Inspector of Indian Agencies, and R. J. Cairns, Inspector of Indian Schools, together with the big chiefs of the province, representing the organization known as the Allied Tribes of British Columbia, it was decided to arrange a settlement of the famous outstanding grievances of the Indians which have been held by the aborigines since 1871.

INSTITUT CAN. FRANCAIS CELEBRATED 71st BIRTHDAY Ottawa, Sept. 22—The Institut Canadien-Francais d'Ottawa, the pioneer literary and recreational club of the Capital and the oldest organization of its kind in Ontario, celebrated its 71st birthday last night by the holding of its annual meeting.

BLOODBOUNDS ARE ON TRAIL OF MURDER Lethbridge, Alb., Sept. 22—Blood hounds are on the trail of Emil Picarello believed to be the driver of the automobile from which Constable S. O. Larsen of the Alberta Provincial Police was shot down in the Crow's Nest Pass Thursday evening.

Three men have been arrested as accomplices, including Steve Picarello, son of the wanted man.

Lord Curzon's industry and intellectual probably are sufficient to explain his career but he had a piece of luck when in 1898 a new Viceroy was to be appointed for India. It appears that Curzon when he entered Parliament conceived the idea of spending his vacations in Asia to gain first-hand knowledge of Far Eastern affairs.

Lucy was host to Lloyd George at the time the latter as Chancellor of the Exchequer was in the thick of his fight for his insurance bill. His slogan, summing up the scheme, was "You give me four pence and I'll give you nine pence."

Lucy comments upon the late King Edward's delight in sport, and the pleasure he had in having his sporting friends about him at Court. After his death, however, these pleasures disappeared, and people of different tastes took their places.

LUCY PUBLISHES ANOTHER DIARY

"Toby M.P." of Punch Always Sprightly Commentator On English Public Men

Sir Henry Lucy, better known as "Toby M.P.", of Punch, is rarely a profound but always a sprightly commentator upon English public men, and his published diaries always make interesting reading.

Portland, Ore., Sept. 22—Millions are being wasted annually in the erection of ugly church buildings which will prove an intolerable burden to future generations.

The resolution declares that the uselessness of the majority of the church buildings "deprives multitudes of our people of the inspiration for worship comes from churches whose atmosphere brothes the spirit of worship."

This intimation was borne out this morning when the bishops went into executive session on the pastoral letter and halted circulation of printed copies of Bishop Lines's sermon on the occasion of the pastoral letter. On this basis the pastoral letter, it is forecast, will urge strongly a more active participation of the church in sociological activities and a more vigorous advocacy of the rights of the laboring classes in industry.

"One of the troubles with the Episcopal church," declared Bishop Lines in his sermon, "is that it has been too close to those high in authority and in wealth, while less considerate for the great majority for whom life is one long unending struggle, often with little hope, often in poverty."

The church must make its own the cause of the unprivileged people of those who are in the hard places in life, of those upon whom existing social and industrial order presses heavily, while it must stand against injustice and unfairness on both sides."

Cooperation of the United States with Great Britain and the other Powers in efforts to prevent further massacres of Christians by the Turks in Asia Minor is asked in a resolution adopted by the Bishops and wired to President Harding this morning.

Pressing Bishop Tuttle announced the death of Bishop Whitehead of the diocese. The death caused particular regret inasmuch as it deprived the venerable prelate of the opportunity to see the consummation of the work of revision of the prayer book on which he has worked since 1913 as chairman of the commission on revision.

The question of administration of the communion by means of a common cup, discussed by the Bishops last week, was before the deputies this morning. The Bishops had opposed any alteration in the canon that provides for common use of the chalice. The deputies adopted a resolution urging appointment of a commission on a report on the matter at the next convention.

The reason people are so down on mosquitoes is because nobody likes to have a bill presented.

There are others whose appearance is due to personal favoritism on the part of the sovereign, and not naturally these are often different people under different sovereigns. Lucy has by no means exhausted his material despite the prolificacy of his writings, and we look for still later entries in his interesting diaries.
